

## 2007 CPT Code Recommendations

These recommendations for 2007 coding changes, additions, and revisions to our recommended codes are based on information in the 2007 CPT and AMA instructions.

All coding recommendations are subject to change at any time. It is the client's responsibility to verify the accuracy of the codes and to assign values based on the reimbursement for your area. If you have any questions, please refer to the Current Procedural Terminology (CPT) Manual published by the American Medical Association. To verify reimbursement or if you have questions regarding usage of a CPT code, please contact your local Medicare carrier. Please contact Client Services at 800-421-4449 if you have questions regarding CPT coding changes to custom panels.
